Air Vice-Marshall G. R. Howsam Inspected Air Cadets; Gave High Praise For Fine Demonstration

***Main Intention Behind Training is to Become Better Citizens,* Stated Vice Marshal**

Thrilled by the high honor of having air vice-marshal G. R. Howsam, M.C., as inspecting officer, Air Cadets and their officers of Summit Squadron No. 73, gave a flawless demonstration of precision drill at the sports grounds on Thursday, June 8, on the occasion of their annual inspection.

The inspection platform was located at the west side of the sports grounds and from it rose a flag pole bearing the Air Cadet flag.

The drill was under the command of Flying Officer Harold Houghton, who, at the start of the demonstration had cadets stand at attention before he marched towards Vice-Marshall Howsam for the salute and greetings. The vice-marshal then inspected the two flights of cadets, Coleman and Bellevue-Hillcrest, and the bugle band. He spoke to each of the boys, asking them personal questions and giving them words of encouragement.

Following the inspection the vice-marshal retired to the inspection platform where he took the salute at the ceremonial march past followed by the precision drill. Following the drill the cadets were examined on aircraft recognition, signals and first aid.

Following is air vice-marshal Howsam's address to the cadets and officers:

"I am happy indeed to be here this evening and to have inspected your squadron. You have made a splendid showing and great credit is due your officers. I was pleased to learn that a number of the Cadets come from the neighboring town of Bellevue. That is excellent and you are a good example of what is termed 'combined operations'.

I imagine many, if not all, here

JASPER JONES NOT WOUNDED IN ITALIAN FIGHTING

Three weeks ago Mrs. Spillers received a telegram from the war office advising her that her grandson, Pte. Jasper Jones, had been wounded in action on the Italian front. One week later she received a second wire that Jasper was not wounded.

It has been learned since that Jasper was picked up so completely exhausted that it appeared that he had been wounded. Twenty four hours in the hospital however brought him around and he is now once again in the front lines.

Mrs. K. Kilgannon Passed Away on Friday Morning

Had Been Ill Since February; Came Here From Scotland in 1916; Funeral Held on Monday Morning.

Her many friends heard with deep regret on Friday morning that Mrs. Katherine Kilgannon, 69, an old time Coleman resident, had passed away in the local hospital at 3:45 a.m.

Born at Stirling, Stirlingshire, Scotland, in 1875, deceased was educated and grew up into young womanhood in her native city. She married James Kilgannon. In 1909 he came to Canada, settling in Coleman. A year later, accompanied by her three daughters, Mrs. Kilgannon joined him in Coleman where she resided till her death. Her husband predeceased her in 1915.

Deceased was a staunch supporter of the Catholic church and devoted a great deal of her time through the years in support of Holy Ghost church and the Catholic Ladies Aid. She was also a member of Coleman Caledonian Society.

Surviving are three daughters, Mrs. Wm. Jones, of Calgary, Mrs. S. B. Ryan, of Coleman, Miss Kathleen, of Dawson Creek, B.C., and two sons, James, of Coleman, Sgt. Frank, based overseas, and five grandchildren.

The funeral was held at 10 a.m. Monday from the family residence on Fourth street. Solemn Requiem High Mass was sung at Holy Ghost church, Rev. Father Leo Sullivan conducting the services. Interment was made in Coleman Catholic cemetery.

Pallbearers included old-timers of Coleman and friends of deceased, they being J. A. McDonald, Steve Leasky, Steve Janostak, Dan McLellan, Wm. Fraser and Peter Smith.

"BREEZY" WRITES FROM PORT ALBERNI, B.C.

The Journal is in receipt of a letter from James "Breezy" Rezac, popular young west Coleman businessman of a year ago. It reads: "Although almost a year has elapsed since I left the old familiar stamping grounds, I have not lost interest in the happenings and the people of the Crows Nest Pass. Knowing of no better way to keep in touch with events in the Old Home town you will find enclosed a money order for a subscription to your Coleman Journal. Best regards to all my friends—James "Breezy" Rezac.

Song Recital Tickets Having Brisk Sale

Freda Antrobus to Arrive Home on June 18; Piano Accompanist George Coutts to Arrive Wednesday Morning.

Reserved seat tickets for the song recital featuring Freda Antrobus in the Community hall on Wednesday evening, June 21, are enjoying a brisk sale. Tickets have been purchased by music lovers in all Pass towns and there is still one week to go.

Persons residing out of town and who are unable to travel to any of the ticket depots at Blairmore or Bellevue, may secure tickets by phoning Antrobus' office, 2511, in Coleman. The seating plan is also on display at the latter office.

Freda will arrive from the east on June 18 and will have the opportunity of resting at home for three days before giving the concert.

Mr. George Coutts, Freda's piano accompanist, is present in western Canada conducting music examinations for Toronto Conservatory of Music. He will be in Coleman the day prior to the concert, but arrangements have been made to bring him to the Pass Wednesday morning. He will conduct music examinations in the Pass during the day and will appear on the stage that evening.

It is to be noted that the concert will open at 8 p.m. and end 8:30 as advertised last week.

A much appreciated gift was received this week to aid the concert when Mr. Meyerhoff of Crescent Shows, wrote out a cheque for \$25 to be added to the concert receipts. The Lions acknowledge his gift with much thanks.

Freda is donating her services in order that the proceeds may be used for some Community activity. To the Lions Club, which she has asked to sponsor the concert, she has given the honor of determining the activity to be supported.

Council Sat As Court of Revision on Monday Evening; Three Appeals Heard

R. A. Montalbetti Buys Main Street Lot For \$200; To Enforce By-Law Re Stores' Closing Hours.

Regular meeting of the council was held on Monday evening. Present Mayor Antrobus, Councillors Abousafy, Dutil, Lowe, Jenkins and Ramsay.

Prior to the meeting the council sat as a court of revision to hear three appeals against tax assessments. There was one appeal against land assessment, one against property assessment and one against the taxation of church property within the town.

The first two failed in their appeals, although a land assessment will be made in 1945 and a number of lots, especially on Second street, are expected to be lowered in assessment value.

It was unanimously agreed to waive taxation on all non-revenue producing church property. Mr. Frank Graham appeared before council on behalf of all churches in town.

E. Onofri, who has been a Workmen's Compensation case at Banff for the past sixteen months, appeared before council to inform them that during his absence some persons unknown had ransacked his shack and damaged and stolen his property. Constable Antle will investigate.

George McMullen was present to ask council's permission to construct a bicycle stand in front of his business establishment on main street. Some councillors were opposed to the idea and the matter was left over to next meeting for further discussion.

Letters were received from Mrs. Fred Anderson and Mrs. Roy Anderson, of Barons, agreeing to maintain the Androsak children in their homes at \$10 a month each as suggested by council a few weeks ago.

Since the town is about to start repairing the concrete sidewalks, rental charges on concrete mixers as well as cost of new machines were discussed. Council stated it was in the market for a good second-hand machine. The Excel machine will be used for the street repairs.

Correspondence was read which practically admitted that Henry Claes would soon receive his taxi license to do business in the town of Coleman. Mr. Claes, who was present, asked and was granted a taxi parking lot in front of the Grand Union hotel.

Two tenders were received for the purchase of the vacant main street lot. One bid was for \$200 and the other \$225. The \$200 bid was accepted as council was of the opinion the more substantial building of the two would be erected. The successful tender was submitted by R. A. Montalbetti who will erect a building 25 feet by 75 feet which will conform to the town building by-law and will house a modern electrical store.

Mrs. D. V. Siler and Mrs. E. L. Cooke made application to open a dress-making store. Permission was granted to the rider that they must abide by the official closing hours of the town.

The raising of the business closing hours point created active debate as it was brought out in the discussion that a number of merchants are doing business after official closing hours. After hearing the discussion for some time police committee chairman John Ramsay stated that he would have Constable Antle look into the matter and prosecute merchants found guilty of this practice.

Mayor Antrobus reported that he had again received complaints regarding barking dogs on Second street. Constable Antle was asked to see if he could stop this nuisance as time and again complaints have been received from citizens on Second street.

A complaint was received against Jeff Knowles who had been guilty of dumping cesspool refuse near a roadway, the "by product" spilling on to the roadway and some unsuspecting citizens stepping in it, in the dark.

Ashtman Archie Fraser will be asked to attend the next regular meeting of the council.

CARD OF THANKS

We wish to express our sincere thanks and appreciation to our many friends who were so kind to us during our recent bereavement and also for the beautiful floral offerings, Mass cards, cards of sympathy, those who loaned cars and to the pallbearers. Thanks is also expressed to Matron E. V. Wood and Nurse Fredlund, of the hospital staff, for their kind attention during our late mother's illness.—The Kilgannon Family.
(Continued on Page 4)

Blairmore Elks Defeat Calgary in Drill Display

Won Over City Team by One Point; Vermillion Lodge Won Trophy for Best Community Service Work

Blairmore Elks are quite proud of their feat of defeating a Calgary team to win the Roy Pen-dray Shield for the best drill display in a competition open to provincial lodges. The Blairmore team's sergeant-at-arms was A. R. Bourne. Other personnel included G. Maniquet, C. Larbaestier, M. Aschacher, F. Lamey, F. Pozzi, P. Kroll, M. McKay, C. Lane, J. M. Brodie and I. Heppell. Mrs. Frank Pozzi, of Frank was pianist.

Coleman entered the competition for the Community Service Cup but failed to gain first place which was won by the Vermillion lodge. Delburne and Lloydminster were entered.

Attending the convention held at Calgary were Coleman's delegates J. M. Rushon and Dick Tiffin.

Mrs. Jack Nash returned home from Kimberley on Wednesday, where she had been on a visit to her daughter, Mrs. Ken Blain.

The Waterton Lakes Camp Project

As announced in The Journal last week, the site for the new Camp for Youth has been secured; construction of necessary buildings has commenced and is progressing favorably. We now endeavor to answer some of the questions which may arise in the minds of those interested.

1. Who may go?
Answer: All the boys and girls in the Lethbridge area, i.e. from the Pass to Foremost and from Slavey to the border, within age limits indicated below.

2. Where is the camp?
Answer: In the Waterton Lakes Park just south of the Pass Creek road five miles from the Pass Creek bridge on the road to Waterton townsite.

3. What kind of camp?
Answer: 10 days of camping, swimming, handicraft, woodcraft, games, hiking, Bible study, and worship.

4. Who will take charge?
Answer: A trained nurse, competent cook, trained leaders and directors will be on the staff of every camp.

5. The Cost?
Answer: \$8.00 for ten days.

6. When will the camps be operating?
Answer: Boys of 12 years and up will have their camp July 17 to 27. Girls 12 to 14 years inclusive—July 27 to August 7. Girls 15 and up, August 7 to 17.

The central camp committee seeks \$3000 for development purposes now in progress. Already liberal contributions have been received. The Coleman camp committee hopes to make a worthy contribution to the above fund. Accordingly a number of boys and girls have been appointed to collect funds for the project. They will go in pairs to their allotted parts of town. A receipt will be given (for income tax record) for all donations of \$1 and up.

SONG RECITAL
— BY COLEMAN'S —
FREDA ANTROBUS SOPRANO

in Canada

Scientific Research

SCIENTIFIC PROGRESS IS PLAYING an important part in hastening the Allied victory, yet it remains one of the least spectacular features of the war, because of the secrecy which must be attached to it. However, some of the developments which have been of great advantage to the Allied cause, are now well known, and give us reason to have every confidence that this work will be successfully carried on as long as there is need for it. In Britain, the great importance which is attached to scientific and industrial research was demonstrated when the Chancellor of the Exchequer, Sir John Anderson, who recommended in his last budget that a central tax be voted for this purpose. In 1943, the Right Honorable Sir Oliver Lyttleton, British Minister of Production, stated that "thirty-five per cent. of British production is turning out weapons which did not exist except in the minds of their inventors when the war broke out. Others are being developed all the time."

Many Weapons Are Perfected

British scientists have perfected many new weapons, both for defensive and offensive action. One of the earliest of these was radar, which is now shared with all the Allied nations. This form of radio detection is believed to have been the deciding factor against Germany in the Battle of Britain. There have been other inventions in the realm of detecting devices both for aircraft and for use in the navy. The famous "Z" rocket gun, which has proved so effective against night bombers was first made in Britain, and an officer of the Royal Air Force, Group Captain Whittle, invented the jet-propelled plane, which has opened up great possibilities in flying, both in war and in peace. While emphasis is now naturally placed on developments which are useful in wartime, much of the work done in Britain since the beginning of the war, will be of great value in later years.

Expansion In Research Here

In Canada, extensive scientific research is being carried on in connection with the war effort, and much valuable work has been done. Hon. James A. MacKinnon, Minister of Trade and Commerce, recently outlined before the House of Commons, some of the projects which are being undertaken here. The National Research Council, he stated, now has a staff four times as large as that employed in peacetime, and it operates nine stations in addition to its large central laboratory in Ottawa. Much of the research which is done is for the armed services and cannot be revealed at this time, but some interesting facts were given out concerning projects which could be discussed. These included investigations in the realm of medical research, relating to such problems as night vision, fatigue, diet, and others. There has also been extensive work on secret instruments, photography and many other devices necessary in combat. It is apparent that the needs of war have given great impetus to scientific research, and it is to be hoped that this progress will continue when we are faced with the many problems which will arise in the post-war years.

English Law

Allen Is Protected The Same As The Native Born

Dr. Theodore Goldschmidt came to England in 1933 from Frankfurt. He qualified to practice in Britain in 1935, and set up business in Clapton.

One day recently the police sent three men to his consulting room for the purpose of trying to extract medical certificates from the doctor, stating that they were unfit for work. They feigned illness so successfully that they succeeded, and Dr. Goldschmidt was prosecuted under the defence regulations.

But the magistrate not only declared his belief that the doctor gave the certificates in good faith, but condemned the use of the agents-provocateurs as alien to the spirit of English law. The case against the doctor was dismissed, and he was awarded 10 guineas costs.

Thus does English law maintain its sound traditions and high sense of integrity. The stranger under our roof is protected with the same care as the native born.—London Express.

Buy War Savings Stamps regularly

"Threw away my harsh laxatives"

"Out they went, all those harsh, embarrassing purgatives. For my constipation turned out to be due to lack of 'bulk' in the diet. So gentle ALL-BRAN proved the answer for me."

Yes, ALL-BRAN is for you, if your trouble is due to lack of "bulk" in the diet. Here's what you do. Eat KELLOGG'S ALL-BRAN regularly, and drink plenty of water. This pleasant cereal helps to produce smooth-working "bulk," and prepares wastes for easy elimination. You'll want this regularly, so you'll enjoy eating ALL-BRAN daily. Remember it's a cereal—not a medicine. At your grocer's. 2 handy sizes. Made by Kellogg's in London.

Safe And Speedy

Great Advances Made Since First Plane Crossed Atlantic

Alec and Brown (25 years ago) spanned the Atlantic from Newfoundland to Ireland in 16 hours and 22 minutes. Recently a medium bomber did the same job in a little under seven hours. Even if the distances from Newfoundland to the large centres of population on the eastern seaboard are added, it could be possible in a few years to leave Britain after breakfast and reach Montreal in time for the next meal—or, indeed, given the difference in time, to reach Montreal in time for a second breakfast.—Montreal Star.

GEMS OF THOUGHT

FALSE PRIDE

I have been more and more convinced, the more I think of it, that, in general, pride is at the bottom of all great mistakes.—Ruskin.

A man should never be ashamed to own he has been in the wrong, which is but saying in other words that he is wiser today than he was yesterday.—Pope.

Vanity is the mother, and affectation is the darling daughter; vanity is the sin, and affectation is the punishment; the first may be called the root of self-love, the other the fruit.—Lord Halifax.

Pride either finds a desert or makes one; submission cannot tame its ferocity, nor satisfy all its voracity, and it requires very costly food—its keeper's happiness.—Colton.

The pride of circumstance or power is the prince of this world that has nothing in Christ. All power and happiness are spiritual, and proceed from goodness.—Mary Baker Eddy.

Why doth the Lord requir of thee, man, to do justly, and to love mercy, and to walk humbly with thy God?—Micah 6:8.

The Red Cross flag is the flag of the Swiss Confederation reversed.

Price Control And Rationing Information

Q.—What is the new regulation covering the placing of price tags on certain clothing?

A.—Effective June 1, retailers of men's, women's and children's clothing and furnishings will be required to put a price tag on every article displayed for sale, showing the manufacturer's Wartime Prices and Trade Board license number or his registered trade mark, and the range or stock number and size of the garment, printed, woven or stamped on it or on a label or tag attached to it.

Q.—I received my No. 4 ration book this week through the mail. Can you give me any reason why they should have taken some coupons out of my book?

A.—Persons applying for their No. 4 book one month after the date of general distribution forgo the coupons which became valid during the month. It is reasonable to assume that persons who did not apply for their new books, did not have rationed commodities at that time.

Q.—Is it against the regulations of the Wartime Prices and Trade Board for dressmakers to make long dresses?

A.—Brides are the only people these days who can have long dresses and then only in white or an ivory tone. Otherwise, it is against the regulations for dressmakers or manufacturers to make long dresses.

Q.—How much notice am I entitled to if I pay rent by the month in shared accommodation?

A.—A tenant paying rent by the month in shared accommodation is entitled to a month's notice. Shared accommodation is defined as the landlord's residence, with the landlord and tenant sharing the use of the same entrance and facilities such as the bathroom.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book (the book in which you keep track of your ceiling prices) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

British Scientists

Have Developed Many New And Revolutionary Weapons Of War

The record of British scientists at war has proved them more than worthy of this recognition. Many of the newest and most revolutionary weapons of war—whether defensive or offensive—have been the product of British brains. Radar, probably the greatest weapon in air warfare, was first discovered and perfected in Britain, and shared with Britain's Allies. In the Battle of Britain it tipped the balance against Germany—and in favor of the whole civilized world. Since those days Britain has developed many other weapons of air warfare. After Radar came improved anti-aircraft guns, culminating in the now famous secret "Z" rocket gun. Britain's new air weapons have been just as much offensive as defensive. The "backroom boys," as her scientists are called, have produced bombs which have grown bigger and more powerful every year. Their latest is a 12,000 pounder—so large that experts thought they could never get it inside a filling factory. The application of the degaussing girder to the hulls of ships, thus neutralizing the effect of the German magnetic mine, was equal to a major victory at sea. Within a few weeks British scientists had defeated the menace of what Germany had vaunted as a war-winning weapon.

Peachy Lemon is a fruit dealer in Medford, Oregon.

TORN BUT EASY TO DARN

Draw the edges together neatly with fishbone stitches. Darn the tear beginning the stitches half the length beyond and also half the length of the cut above and below. Keep an equal number of stitches in rows because there is no thin or worn spot. Darn for two-thirds across the tear. Repeat on the opposite side and continue across the tear, level with the line of stitches. Complete the first block of darning level with the line of second block... The crossing should form crosses, steps or T's.

Veteran Of Singapore

Believes Lack Of Medical Supplies Will Finish Jap Fighters

The Japanese will crack medically in the opinion of F. L. Tom Watson, R.C.A.F. fighter pilot who was the last man to fly out of Singapore. In Ottawa for posting, the Yukon-born airman of Vernon, B.C., told a group of newsmen of the heroic last fighting put up by a small band of British and Canadian airmen protesting scanty cover for the ground forces falling back through Malay jungles to Singapore.

But despite the power of the early Japanese thrust, Watson said gathering Allied strength would have little difficulty in a showdown battle.

He said lack of medical supplies would "see the eventual extermination of the Jap fighters in the Pacific island campaign." He spoke of a Japanese bomber crew which recently crash-landed near his station. "Every one of the nine men in the crew were medically unsound—some of them had malaria symptoms and the rest had other diseases."

Allied medical officers found this condition general among Japanese prisoners. Japanese in touch with their home bases got few enough medical supplies but those in isolated spots got none at all "and they are cracking medically."

Watson was bitter about reports and criticism of the British effort in the Far East. He said no one seemed to take the general picture into consideration in sizing up the situation. Britain had sent more than she could afford to that theatre.

Valuable Geese

The Golden Goose Lives Again In War-Torn China

The Golden Goose lives again and the woman who owns her spends most of the time just watching over her. So says a Canadian recently returned from war-torn China.

Before the war, China exported thousands of pounds of goose feathers, but since the Japanese invasion the little quacking "gold mines" have become almost a casualty of war and therefore doubly precious in China's potent eyes. If a woman is the proud owner of a laying goose, she's set for life, or so she thinks.

A smiling peasant woman in Chengtu, West China, refused \$300,000 for a single goose, for she lays an egg a day. Mrs. Wong, the owner, gets \$10 a piece for hatching eggs and she has so many orders ahead that she can't keep track of them any more.

Chinese women hatch these precious goose eggs by the warmth of their bodies, keeping them in a little padded pocket between their breasts. This is a job for the older women of the clan, who sit or work quietly in the sun until the life in the egg becomes a newly-hatched maker of more goose feathers, and more money for the little ravaged farms that their peasant owners staunchly refuse to leave.

CURE FOR INSOMNIA

The New York Times says eleven out of twelve of his patients were able to sleep after he cut the amount of salt in their diet. Dr. Michael M. Miller (United States Marine Hospital Ellis Island) told the American psychiatric Association. Six of Dr. Miller's patients were marines who could not sleep and six had been morphine addicts. All were benefited.

A pendulum, to beat one second exactly, must be one-fifth of an inch longer at Spitzbergen than at the equator.

DELICIOUS SUPPER TREAT

CARROT TIMBALES

2 cups milk, scalded	1 teaspoon salt	2 teaspoons lemon juice
2 tablespoons butter	1/4 teaspoon pepper	
3 tablespoons	1 cup coarse Christie's	
chopped parsley	1/2 cup m. l. Soda	
1 teaspoon grated onion	Cracker crumbs	2 cups finely diced cooked carrots
	3 eggs, separated	

Combine first 7 ingredients and cook 2 minutes over boiling water. Remove from heat and add to beaten egg yolks. Stir in lemon juice and carrots. Fold in stiffly beaten egg whites. Bake in moderate oven (350° F) 30 minutes. Makes 8 timbales. And remember, Christie's Premium Soda Crackers are so fresh and flaky they enhance the flavor of soups, salads, creamed dishes. Always keep a package or two on hand.

Christie's Biscuits

There's a wartime duty for every Canadian

CHRISTIE, BROWN AND COMPANY LIMITED, Bakers, TORONTO & WINNIPEG

Here a CWAC

There a CWAC

OVERSEAS—

Cupid has a busy time with the Canadian Army Overseas. Since November 1942 when the first small group of CWACs marched down London's Piccadilly, more than thirty weddings have been reported. One of the most recent ceremonies united Pte. Ellen Uren and Tpr. Ronnie Mac, both of Hamilton, Ont. Capt. Cynthia Gough of Montreal gave the bride away. "It was quite a new experience," she reported. "The CWACs are much in demand," writes Capt. Gough, "but they take their social popularity casually. Their motto is 'the war comes first.'"

Personality

Printers have ordered Mother's Day cards for practically every member of the family, but in his wildest dreams no printer has ever conceived one for a large, male sergeant major. It took the CWAC to do that. It started almost two years ago when R.S.M. Fred Purkis of Edmonton, Alta., drilled the first CWAC class at the Vermilion, Alta., training centre and earned the nickname of "Ma Purkis". Today he has charge of the CWAC precision squad in Edmonton and he is not permitted to forget the "Ma" nickname. Saturday night found R.S.M. Purkis at a dance when a large florist's box was delivered. Inside a sheaf of tulips nestled a card from the 26 members of his squad. Below the picture of a smiling woman in a rocking chair, he read: "You may not dress in lavender and lace, but we still love your dear sergeant's face."

Beauty Tips

According to the Poet, Keats, "A thing of beauty is a joy forever," and today's Army girls will agree with him no less than the glamorous belles of yore gone by. The basic feminine instinct to look attractive at all times is apparent in the interest of Canadian Women's Army Corps members in beauty culture classes. Lectures which teach natural beautification of the face, graceful walking and ease in conversation rate high in popularity. Miss Canada in khaki's own trim, stylish appearance is proof that she takes her lessons seriously.

MASCOT

Believe it or not, the favourite mascot of Army girls is not a duck, but a goldfish! In several CWAC barracks the ichthyological touch has been added by discussions on whether "Mahitabel" (all goldfish have profound names) is good Army material and whether his brand of food agrees with him. Much consternation was caused in an Ottawa barracks recently when Cpl. Margaret Leslie of Montreal inadvertently cracked her goldfish bowl and Mahitabel was obliged to spend the night in a G.I. wash basin.

MEMORIAL WINDOW

American soldiers in this North American area have contributed toward the cost of a memorial window to be placed in a 13th century church at Cranley, Eng., commemorating the Churchill-Roosevelt meetings. The window shows the president and prime minister sitting on the deck of a warship.

SMILE AWHILE

"I see you've advertised your saxophone for sale."

"Yes; I heard that my neighbor had bought a gun."

Magistrate (sympathetically)—"Could the motorist have avoided you?"

Henpecked Victim (sadly).—"E could that, your worship. 'E had the choice of 'tting me or the missus, and 'e picked on me."

Telephone—Long distance? I want to place a call to Danbury, Maine.

Operator—How do you spell the name, please?

Telephone—Lady, if I could spell it, I'd write.

The two wives were talking about their husbands.

"I think you're lucky," said one. "Your hubby seems to be a real treasure."

"Maybe," said the other, "but when there are any jobs to be done he's a hidden treasure."

Yachtsman—If this squall continues, I shall have to leave to.

Girl Passenger—What a horrid way to put it.

Trate Church Woman—Why don't you arrest that nudist colony that is disgracing this neighborhood?

Sheriff (something of a wag)—I would, but it's awful hard to get anything on them.

"See that man over there? Well there's a price on his head."

"Good heavens! A bandit?"

"No. He's forgotten to take the price label off his new hat."

Man from Florida (picking up a watermelon in a store in California).—Is this the largest grapefruit you've got?

Californian—Please don't crush that raisin.

"You cannot get eggs without hens," said the speaker, stressing the point.

"My dad can," piped a small voice from the rear.

"Please explain yourself, little boy," said the speaker.

"He keeps ducks," yelled the boyish voice from the rear.

For some time the two women sitting in front of him at the cinema had annoyed him with their constant chatter.

At last he could stand it no longer. Leaning forward, he said politely:

"Pardon me, but I can't hear."

"I should hope you can't," replied one woman, coldly; "this conversation is strictly private."

Children grow most rapidly in height during the springtime and put on weight most rapidly in the late fall and winter.

APPLEFORD PAPER PRODUCTS LIMITED, HAMILTON, TORONTO, MONTREAL

ALLIES HAVE SECURED A FIRM HOLD ON THE FRENCH MAINLAND TO EXPLOIT SUCCESS

SUPREME HEADQUARTERS, Allied Expeditionary Force.—General Montgomery, in a message to his 21st army group on the first week of the invasion fighting, said the Allies have obtained a "good and firm" hold on the French mainland, and are in a good position to exploit their success.

Text of Montgomery's statement: After four days of fighting the Allied armies secured a good and firm lodgement area on the mainland of France.

First, we must thank Almighty God for the success achieved and for giving us such a good beginning towards the full completion of our task.

Second, we must pay tribute to the Allied navies and air forces for the magnificent co-operation and support. Without it we soldiers could have achieved nothing.

Third, I want to congratulate every officer and man in the Allied armies on the splendid results of the last four days.

The British, Canadian and American soldiers fighting gallantly side by side have achieved great success and have placed themselves in a good position from which to exploit this success.

To every officer and man, whatever may be his rank or employment, I send my grateful thanks and best wishes for the future. Much still remains to be done, but together, you and I, we will do it and we will see the thing through to the end.

No Wider Choice

But Everyone Knows Where Best Men Can Be Had

Two young men in a Montreal restaurant were complaining about the menu, which offered only a choice of three meats, two soups and four desserts. One turned to an elderly diner at the next table and asked him what he thought of the menu.

"Not bad," he responded. "Matter of fact, at the place I like to eat best of all you seldom get soup, only one meat and one dessert."

"Where's that?" asked the puzzled young man.

"Home," replied the other, returning to his soup.—Maclean's Magazine.

DID GOOD WORK

By May, 1942, apart from the operations in the Far East, 86 per cent. of the German and Italian surface warships sunk or captured and 89 per cent. of enemy subs destroyed by all the Allies, were sunk by British forces.

A LONG TOW

In one of the longest tows of the war the rescue tug Eminent took a badly-damaged destroyer, the Marne, which had her stern blown away, from Gibraltar to Britain, more than 2,100 miles, in 10 days.

Even if the earth did not rotate at all on its own axis the sun would rise and set once during the year because of the earth's journey around it.

Although Iceland's climate is too severe for ordinary vegetable growth, huge garden plantations have sprung up about hot springs where even semi-tropical crops can be grown.

London's famous No. 10 Downing street was first occupied by a prime minister in 1704.

GENERAL EISENHOWER HAS COMPLETE CONFIDENCE IN THE ARMY, NAVY AND AIR FORCE

SUPREME HEADQUARTERS, Allied Expeditionary Force.—General Eisenhower declared his "complete confidence in the ability of the Allied armies, navies and air forces to do all they are asked to do has been completely justified."

"In the early landing operations which are always naval, the two Allied navies—together with elements of navy units of the United Nations—under Admiral Ramsay have excelled, in the high standard of their planning and their execution, any prior venture in which I have seen them engaged," Gen. Eisenhower said.

WANTED TO GO

Churchill Was Anxious To Accompany Invasion Fleet To France

LONDON.—Prime Minister Churchill, it was revealed by Sir Bertram Ramsay, was dissuaded "only with great difficulty" from accompanying the invasion fleet in the assault against France.

Sir Bertram, commanding the Allied invasion forces, was quoted by an Australian war correspondent aboard H.M.S. Hilary, as saying when he visited the ship, that the prime minister was eventually convinced by high Allied officers that his presence in the invasion fleet would involve a great deal of extra work in assuring him protection.

TIMBER SUPPLIES

Will Be Sought On Pacific Coast For United Kingdom

OTTAWA.—J. C. Paterson, Canadian representative of the British ministry of supply, said that he and a party of officials were going to the Pacific coast to negotiate with the Canadian lumber industry for post-European armistice supplies of timber for use in the United Kingdom (to a value of some \$70,000,000 yearly).

Later the party will visit the eastern lumber producers. Mr. Paterson recently returned from a five-week visit to the United Kingdom.

CANADIAN FLAG

Goes Into Battle On Western Front For The First Time

WITH THE CANADIAN INVASION FORCES.—The Canadian flag—popularly known as the "Canadian flag"—went into battle with the Canadian invasion forces for the first time in this war. Up to now, the Union Jack has been flown.

The ensign has the Union Jack in the top left corner and the Dominion's coat of arms in the lower right-hand corner, all on a red background.

MONEY TO SPEND

Franc Notes Were Issued To All Allied Invasion Troops

ABOARD A U.S. COAST GUARD TRANSPORT.—Allied invasion troops have French money to spend in France.

The soldiers had a payday in franc notes before they boarded the invasion barges. Some of the notes were dated 1944 and bore the authority of the Bank of France.

The notes were issued in denominations of five, 50, 100 and 500 francs. The franc is valued at two cents in American coin at present.

ROYAL AIR FORCE

LONDON.—Less than five per cent. of injured Royal Air Force personnel are invalided out of the service. More than 82 per cent. resume operational flying duties.

CANADIAN DESTROYERS ON JOB

NEW YORK.—The Canadian destroyers Sioux and Algonquin were in the Allies' great invasion fleet which smashed at the French coast, the BBC said.

WELL PROTECTED

When a plant root pushes its way through the soil, it wears on its tip a protective cap made of cells. As these cells are worn off, new ones continue to take their place.

Receives Double Decoration

—Canadian Army Overseas photo.

At a recent investiture in Buckingham Palace, Major S. W. Thomson, of Salmon Arm, B.C., was decorated with the D.S.O., and the M.C. by his King. He's shown here outside the Palace after the ceremony with his fiancée, Miss C. Bromley-Martin.

GRAIN CARRY-OVER

Will Be Many Million Bushels Lower Than Last Year

EDMONTON.—D. G. McKenzie of Winnipeg, board of grain commissioners chairman, said the Canadian grain carry-over at the end of July probably would be under 300,000,000 bushels compared with 600,000,000 at July 31, 1943.

"The indications are that there will be considerable storage space in elevators this fall," Mr. McKenzie said. "At the present time there is storage space for 100,000,000 bushels at the Lakehead and there is space now for another 100,000,000 in country elevators."

Mr. McKenzie said he had never seen the prairies "looking better," and that "there appears to be plenty of evidence of moisture."

Buy War Savings Stamps regularly.

MASCOT DUCKS

Donald And Doris Rode Into Second Front In A Crate

WITH THE CANADIAN ARMY INVASION FORCES.—Donald and Doris, mascot ducks of a western Canadian rifle battalion, rode into the second front in a crate. The battalion's carrier section had arranged to take the ducks with it. Rfm. L. G. Klughart, Prince Albert, Sask., and a few of the other men in the section got the two mascots while the battalion was taking amphibious training. There was a raffle in a pub and the soldiers promptly bought Doris from the winner. Doris, snow white, was lonely so Klughart and the boys bought a mate, Donald, a brown male with a green head.

The official flag of Alaska was designed by a 13-year-old boy.

ANNOUNCE BROADENING OF SELECTIVE SERVICE PROGRAM TO FILL MANPOWER NEEDS

CROP PROSPECTS

Timely Rains Have Brought Moisture Where Needed

OTTAWA.—The Dominion bureau of statistics said that "excellent" crop prospects are reported throughout Canada generally with timely rains occurring in most areas where moisture supplies have been inadequate.

The report, first of a series of seven covering crop conditions throughout Canada, also included the second of a series of 16 weekly reports on crop conditions in the prairie provinces where, it was said, conditions are generally good with only a small area lacking moisture.

Dry weather prevailed over all three Maritime provinces, Quebec and eastern Ontario during May but rains late in the month and early in June have improved crop, hay and pasture conditions materially, it was reported.

In Manitoba, heavy rains were widespread and crops are making rapid growth. A few areas report excessive moisture. Seeding of wheat and coarse grains have been practically completed in Saskatchewan and, except for the southwest, crops are making good progress.

Good rains occurred in many areas of Alberta but more is needed in the southern part of the province. However, crop prospects generally are promising.

Conditions in British Columbia are generally favorable, with prospects for one of the heaviest fruit crops on record. Strawberries and early vegetables are now moving to market.

VISITS BIRTHPLACE

WEST VANCOUVER.—The first white child born here, after 68 years on the prairies, has returned to visit his birthplace: Point Atkinson lighthouse. His father, Edwin Woodward, 68, of Rosetown, Sask., here on holiday. His father, Edwin Woodward, was first keeper of the little wooden lighthouse.

OTTAWA.—Faced with a need of 196,000 workers in industry and other civilian occupations, Labor Minister Mitchell announced a broadening of the selective service program to fill manpower needs.

Mr. Mitchell dealt with Canada's acute manpower problem in an address broadcast on the CBC Dominion network. A short time earlier he had outlined to the commons the highlights of the program which has three main features. They are:

1. Interviewing individually of some 500,000 men rejected from service in the armed forces with a view to moving them, where necessary, to more essential employment.

2. Extension of compulsory transfer regulations to cover a greater number of occupations and more vigorous application.

3. Extension of the industrial mobilization survey to all industries making the employment of all men from 16 to 40 years in all industrial and commercial establishments subject to survey.

In his radio address Mr. Mitchell said that toward the end of May employment and selective service offices had vacancies for 100,000 men and 41,000 women required by high priority industries and 55,000 persons sought by industries in lower priorities, including some essential services.

In addition to these manpower needs the armed forces required "a constant stream of additional men."

In spite of the enlistment of more than 750,000 in the armed forces the working population had been increased by more than 500,000.

"As far as the forces are concerned most of the men needed will have to be withdrawn from industry," he continued. "This means replacements will have to be arranged. On the civilian side, we will have to call still further for women who are without family responsibilities to engage in industry either full time or part time. We can use thousands for part time work."

"The transfer of workers from plant to plant and place to place will have to be developed further. The services of conscientious objectors and prisoners of war will be necessary."

TREE PLANTING CAR

Will Make An Extensive Tour Of Saskatchewan And Points In Alberta

REGINA.—Bringing its annual message of tree planting as a means of soil conservation on the plains, the Canadian Forestry's tree planting car will leave Prince Albert, June 17, for Regina and Moose Jaw to begin an extensive tour of central Saskatchewan and a portion of east-central Alberta. In the period June 17 to August 24 the car will appear at 56 different Saskatchewan and Alberta centres providing free motion pictures and other demonstrations to the public.

Alan Beaven, of the Forestry Association, again will be in charge of the car for its tour of Canadian Pacific Railway lines on the Kerbert-Macklin and other branch lines northwest of Moose Jaw.

In Regina, June 18, and in Moose Jaw on the following day, the car will leave Moose Jaw June 21 to begin its tour. Itinerary of the car out of Moose Jaw will bring it to the following centres on the following dates: Belbeek, June 22; Tuxford, June 23; Marquis, June 24; Keeler, June 26; Brownlee, June 27; Eyebrow, June 28; Tugaskie, June 29; Bridgeford, June 30; Aiktow, July 1; Elbow, July 3; Loreburn, July 4; Strongfield, July 5; Hawarden, July 6; Glenside, July 7; Broderick, July 8; Outlook, July 10; Macklin, July 11; Promete, July 12; Denzil, July 13; Salvador, July 14; Lowland, July 15; Kerrobert, July 17; Ermine, July 18; Didsland, July 19; Druid, July 20; Plenty, July 21; Stranraer, July 22; Herschel, July 24; Anglin, July 25; Rosetown, July 26; Fortune, July 27; Sovereign, July 28; Mildred, July 29; Bounty, July 31; Conquest, August 1; Outlook, August 2; Kerrobert, August 3; Compeer, Alta., August 4; Funitler, Alta., August 5; Court, Sask., August 7; Onward, August 8; Major, August 9; Superb, August 10; Kirriemuir, Alta., August 11; Altario, Alta., August 12; Monitor, Alta., August 14; Penman, Alta., August 15; Loyallat, Alta., August 16; Consort, Alta., August 17, and Veteran, Alta., August 18.

The car will then return to Kerrobert, Saskatchewan, Lanigan and Prince Albert, where it arrives August 24.

What The Germans Saw Off The French Coast

—Canadian Army Overseas photo.

Nazi lookouts on the French coast and Nazi reconnaissance pilots saw this scene duplicated a hundred times in the early hours of June 6, as the Allied armies under General Eisenhower launched their long-awaited invasion of Europe. While destroyers stand guard, dozens of landing craft loaded with fighting men dash shoreward to take and hold a beachhead. This picture was taken during the last pre-invasion manoeuvres and shows Canadian troops making practice landings. They used the same technique when they hurried themselves on the beaches of Le Havre and Cherbourg.

The Tanks Roll Ashore!

—Canadian Army Overseas photo.

Close on the heels of the first wave of Allied troops who landed on the French Normandy coast came the tanks. Armored divisions were just as sharply trained as infantry for assault landings and these Canadian-manned tanks are pictured making a practice landing just before the invasion hour struck.

A Message from the Life Insurance Companies in Canada

L-440X

**It's coming — THE ROCKET EXPRESS! —
promised by men who think of tomorrow**

Just as the jet propelled fighting plane has
come today, the Rocket Express will be here tomorrow,
carrying scores of passengers through the stratosphere
from Montreal to Mandalay faster than you would have dreamed possible.
Luxurious, air-conditioned, sound-proofed, this jet propelled transport will
regularly fly the airways of the world in a not too distant future ...
thanks to the work of Men Who Think of Tomorrow!

Great as is the gift which air transporta-
tion has made to the world today ...
bringing the peoples of the world closer
together, expediting business and indus-
try, bringing new mobility and therefore
new opportunity to millions ... a still
greater future in the air lies ahead of us,
being planned today by MEN WHO THINK
OF TOMORROW!

• But let us not look so far ahead that
we cannot see the barrier which stands
before us today. There is a war to win ...
first! And the winning of the war calls
for every ounce of energy that we, as a

nation and as individuals, can muster.

• Look to tomorrow, yes. But today ...
stick to the job of producing for war,
cooperate with every government pro-
gram designed to help win the war, buy
Victory Bonds and War Savings Certi-
ficates with every last dollar.

• That's the way to make sure that
Canada will have its future.

• Let's all be MEN WHO THINK OF
TOMORROW!

THE HOUSE OF SEAGRAM

All Seagram plants in Canada and the United States are engaged in the production of high-proof alcohol to help speed the war
to a victorious end. High-proof Alcohol for War is used in Smokeless Powder, Plastics and many other wartime products.

WORLD HAPPENINGS
BRIEFLY TOLD

Capt. Michael Blair Wallace, youngest son of the late Edgar Wallace, famous writer of mystery stories, has been killed in action.

Although its population is only 11,500,000, Canada's volume of external trade is third largest of all the countries of the world.

The \$1,000,000 target for Lady Cripps' Aid-to-China fund by March 14 was exceeded by nearly \$7,000 a day before.

A South African Spitfire Squadron serving in Italy recently completed its 1,000th operational sortie since it started operations in the Western Desert in 1941.

Trucks with military supplies from India are rumbling into Russia along a centuries-old caravan way which today is the east Persian route.

Pope Pius XII has raised the island of Malta to the status of an archbishopric. Founded by St. Paul, Malta is the oldest Episcopal see in the British Empire.

Sentences totalling over 19 years imprisonment and fines totalling \$42,200 were imposed on seven men and three women involved in black market deals at Manchester, England.

The Archduchess Elizabeth of Hapsburg, daughter of the former Empress Zita of Austria, now resident in Quebec City, heads this year's graduating social science class at Laval University, Quebec.

The Dominion House of Commons decided to include in the records of its debates the speech made to the Senate and the Commons by Prime Minister John Curtin of Australia.

For Military Personnel

New Shoulder-Sleeve Emblem Worn By Eisenhower's Invasion Force

A symbol of the invasion force is the new shoulder-sleeve emblem issued for the military personnel. American and British, enlisted men and officers, attached to General Eisenhower's invasion staff in London. Here is the official description of the emblem: "Upon a field of heraldic sable (black), representing the darkness of Nazi oppression, is shown the sword of liberation in the form of a crusader's sword, the flames arising from the hilt and leaping up the blade. This represents avenging justice, by which the enemy power will be broken in Nazi-dominated Europe. Above the sword is a rainbow emblematic of hope containing all the colors of which the national flags of the Allies are composed. The heraldic chief of azure (blue) above the rainbow is emblematic of a state of peace and tranquility, the restoration of which to the enslaved people is the objective of the United Nations."

In West Africa

Natives Give Soldiers Fruit In Exchange For Aspirin Tablets

West Africans can't stand the heat as well as white men, according to P.O. William S. Berry, of St. Mary's, who in an interview said the natives' dark skins absorb so much sun they trade fresh fruit for aspirin tablets to cure headaches. P.O. Berry, returned to his parents' home after 20 months overseas, 15 as navigator on convoy duty in West Africa, said that when a native chief's finances get low, he imposes a tax on eggs and produce on his people.

A CLEVER PLAN

Some Boston men bought a spring supplying a Canadian tablewater, but found themselves in a quandary when a tariff of twenty-five cents a gallon was imposed on the importation of the water into the United States. They wrote a New York lawyer and asked him if he could suggest a means whereby they could avoid the levy.

He replied: "Freeze the water. Import it in cakes, and bottle it on this side of the border. There is no duty on ice."

GOOD FOR ASPARAGUS

When a fire bomb landed in his asparagus bed at Coulsdon, Surrey, England, Capt. G. W. T. Garrod figured this bit of his garden was finished. He filled in the crater and forgot about it. PS: The asparagus came up thicker than ever.

ORIGIN OF NAME

White Russia is thought to have been so named because of the former traditional costume of its people—white smocks, fibre shoes with white leggings and white homespun coats.

Award Of McKee Trans-Canada Trophy

Air Vice-Marshal J. A. Sully, C.B., A.F.C., is shown presenting the McKee Trans-Canada trophy to Mr. T. M. Reid, D.F.M., of Toronto, at R.C.A.F. Headquarters, Ottawa, recently. Mr. Reid, Aviation Sales Manager for Imperial Oil Limited, won the award for the years 1942 and 1943, jointly. It is an annual award for meritorious service in the development of civil aviation in Canada. The trophy stands on the table in the left foreground of the picture.

Was A Fighter

Welsh Girl Fought And Died In Yugoslavia

The story of a Welsh girl who fought and died as a guerrilla in Yugoslavia under the banner of Marshal Tito has been brought to London by General Velebit, a member of Tito's military mission.

The frail-appearing girl became deeply interested in the continent when she went there as a student. She returned to Britain for her B.A., then went back to Yugoslavia as a lecturer at Belgrade University. Before the war she married a Yugoslav.

When her adopted country first came under Nazi domination in 1941, she worked in the underground until she was forced to the hills as a guerrilla. As a fighter she endured the intense heat of summer and the cold of winter in the mountains, took part in the long forced marches, under constant bombing and shelling. Finally she died from sheer exhaustion. Men who fought with her described her courage as "fantastic."

A chestnut tree near the foot of Mount Etna, in Sicily, measures approximately 200 feet in circumference; this is the largest tree trunk measurement known.

Blood Donor Clinic

First Aid Work Is Undertaken By Students In Saskatoon

"Helping out local hospitals and the Blood Donor Clinic has become one of the voluntary jobs undertaken by young people in Saskatoon, Sask." said the directors of Women's Voluntary Services, Department of National War Services, the other day.

The City Hospital Auxiliary in Saskatoon, which is affiliated with the local W.V.S. has been conducting classes in bandage-making once a week at the City Park Collegiate. Each Wednesday afternoon, approximately 90 high school students make bandages, dressings and swabs.

These are sent to a local hospital, Sanatorium and the Blood Bank. "We are told that the Auxiliary also conducts classes on Monday evenings at the University for women students, where similar work is done and sent to the City Hospital," the directors went on to say. This work is important from both the students and the hospital's point of view, for the girls receive credit for the required number of hours they must put to war work of some kind.

Snakes actually smell with their tongues.

SUNDAY SCHOOL LESSON

JUNE 18

A GOOD SOLDIER OF CHRIST JESUS

Golden text: Suffer hardship with me, as a good soldier of Christ Jesus. II Timothy 2:3. Lesson: II Timothy. Devotional Reading: Hebrews 11:32-12:2.

Explanations and Comments

Paul exhorts Timothy to be a Good Soldier of Christ Jesus, 2 Timothy 2:1-12. Timothy was a native of Lystra. By Eunice, his mother, and Lois, his grandmother, he had been instructed from early childhood in the Old Testament writings. We first hear of him at Lystra on Paul's second missionary journey, when the great apostle chose him as his companion and helper. It is thought probable that he had, however, become a Christian during Paul's first preaching there, for Paul seems to claim him as a personal convert, referring to him in I Cor. 4:17 as his "beloved and faithful child in the Lord."

Here in his second letter to Timothy, Paul tenderly addresses him as "my child," and bids him be strengthened in the grace (divine help) that is in Christ Jesus. As he has taught and prepared Timothy for the ministry, so Timothy is to pass on his instructions to faithful men that they may also be capable of teaching others.

Suffer hardship with me, as a good soldier of Christ Jesus. Paul could well speak about enduring hardship for he has recorded his experience: "Thrice was I beaten with rods, once was I stoned, thrice I suffered shipwreck, a night and a day have I been in the deep; in journeyings often, in perils of rivers, in perils of robbers, in perils from my countrymen, in perils from the Gentiles. . . . If I must needs glory, I will glory of the things that concern my meekness."

A soldier must have no home ties, no business that would prevent his obeying orders, going wherever sent, and like a soldier Timothy must seek to please the Captain who enrolled him, and must not hinder his service by entanglement in the ordinary affairs of this life. Paul would have him free from cares (I Cor. 7:32) that he might attend upon the Lord without distraction (I Cor. 7:35).

"Again, a competitor in the games is not crowned unless he observes the rules. The farmer who has done the work must have the first share of the fruit. Think what I mean! The Lord will help you to understand perfectly. "Never forget 'Jesus Christ risen from the dead, descended from David'—that is my gospel, for which I have to suffer imprisonment as if I were a criminal. (But there is no prison for the word of God.) All I endure is for the sake of the elect, to let them get their share of the salvation of Christ Jesus and also of eternal glory. It is a sure word that 'if we have died with him, we will live with him, if we endure, then we will reign with him, if we disown him, then he will disown us.' (Moffatt's translation).

Copper near the surface of the earth is said to hamper growth of vegetation. For this reason, airplanes have been used in Africa to spot likely deposits of copper.

Smaller Nations

Should Be Given Voice In Plans To Prevent War

Smaller nations should be given a voice in any plans to prevent war "such as those envisaged by President Roosevelt and Prime Minister Churchill," Dr. E. Van Kleeffans, Netherlands Foreign Minister said in an interview with Aneta news agency.

Any effort to place exclusive control of post-war affairs in the hands of larger nations could not count on the active support of smaller powers, he said.

He added that he did not suggest that all smaller nations should be represented at all times in post-war international bodies, but a system of rotation should be devised which would allow the smaller countries to take turns "side-by-side" with the larger powers which may have permanent representation.

Mixed Farming

Saskatchewan Getting Into The Picture In A Big Way

Saskatchewan is now producing more than 25,000 hogs weekly, or at the rate of about a million and a quarter a year. Saskatchewan's beef cattle crop and her dairy and poultry products are adding to the monthly revenue on almost every farm. A great change has come over our Saskatchewan neighbors in the past couple of years. From being Canada's leading wheat-producing province, it is now getting into the livestock production business in a big way, and the manner in which Saskatchewan led all other provinces over the top in the Sixth Victory Loan is evidence of this fact—Lethbridge Herald.

The mariner's compass was known to the Chinese in 1115 B.C.

OUR COMPLETE SHORT STORY—

The Ear Ring

—By—
RUTH GILBERT COCHRAN

McClure Newspaper Syndicate

July's noonday sun blazed the tar paper roofs of Vanadium, but a breeze, tempered by the snows atop Mount Wilson, made Mame Terry's porch a cool and restful oasis in the little Colorado mining town. Mame's boarders had settled there as usual to enjoy a half-hour's smoke and gossip before strolling back to the ore sheds. Pipes were lighted, and a dozen pairs of booted feet rested on the wooden railing, but today's exchange of comments was somewhat lacking in raciness because of the presence of a stranger.

He was pleasant enough, this shrewd-eyed chap whose hat brim bristled with trout flies. And he asked no questions except as to the most auspicious hours for fishing in Wilson Creek. But he was a city fellow, an outsider, so conversation languished until Mame and her sister Kit, settling themselves in two creaking rockers, broke the spell.

"There's Jeff Tubbs, like a lion," Mame remarked, "cementin' his new garage floor again. Why don't you tell him to slow down, Doc?"

"He exchanged much talk with Jeff this past week," Doc Smith winked ponderously. "I did try to commiserate with him a mite after he had that dust-up with a thief the night before Lena left him. But there wasn't much doubt left in my mind that Jeff wished I'd attend to my own affairs. In fact, the whole town heard him requestin' me to do so."

His hecker laughed, and Mame's sister pricked up her ears.

"Things must have been happenin' since I was here last summer," she smiled. "You don't mean to tell me that that young girl I saw in Jeff Tubbs' store was his wife?"

"His wife? Heck, no!" the landlady responded vigorously. "She married young Frank Stevens, a surveyor, a week ago. Don't know what else Jeff coulda expected, even if he did practically make a prisoner of the girl."

"She was a pretty little thing," said Kit.

"Sweet, too," Mame agreed. "She was the widdier Ames' daughter, her that Jeff married ten years ago. I often wondered how Lena could stand the way Jeff treated her after her ma died." Mame, fairly launched, drew a deep breath, and her regular boarders, to whom the tragic saga of Tubbs was only too familiar, drifted off to their afternoon occupa-

WHEN NERVOUS TROUBLES MAKE ME "SHAKY" I FIND DR. MILES' NERVINE HELPS TO RELIEVE NERVOUS TENSION AND CALM JITTERY FEELINGS

There's plenty these days to make people nervous. And overtired nerves can turn into day-long misery! If you suffer in this way, try the soothing, quieting effect of Dr. Miles' Nervine, which contains well-known nerve sedatives. Take Nervine according to directions for help in general nervousness, sleeplessness, hysterical conditions, nervous fears; also to help headache and irritability due to nervousness. In the meantime, eat more natural food... get your vitamins and take sufficient rest. Effervescent Nervine Tablets are 35c and 75c. Nervine Liquid: 25c and \$1.00.

did as ordered. Then, passing through the store on his way out, he saw this little earring on the floor, and slipped it into his pocket. The rest was pie for us."

He squinted skyward. "Clouding up a bit," he observed. "Guess I'll get my rod and try my luck. Might as well combine a little pleasure with business."

Queues In England

People Line Up Only When There Is Something Special

Queues are comparatively rare in England except outside theatres, picture houses and restaurants, writes Oswald Dutch in the Montreal Star. It is true that, especially on Saturdays, you see queues outside pastry-cooks or fish shops, either because it is an hour at which the majority of people are free to do their weekly shopping or because something special has attracted their attention.

When the first consignments of oranges from Spain and North Africa appeared in the shops, for instance, there were immense queues because everybody was anxious to taste oranges again after having been deprived of them for so long and because they were not available in unlimited quantities. The same thing happens when fresh fruit, tomatoes or other early or rare vegetables appear in the shops. There was a time two years ago when people had to stand in queues to obtain cigarettes or chocolate. Today the stocks of cigarettes are so ample that nobody would dream of doing so.

Are Greatly Changed

Views Of Soviet Russia Broadened In Last Few Years

There is still too much tendency in some directions to regard Russia with misgivings. But we feel that this is largely due to the fact that many people do not realize how greatly changed the Russia of today is from the Russia of 25 years ago. Mr. Churchill reminded us of this when he said on Wednesday: "Profound changes have taken place in Soviet Russia. The Trotskyite form of Communism has been completely wiped out. The victories of the Russian armies have been attended by a great rise in strength of the Russian State and a remarkable broadening of its views. The religious side of Russian life has had a wonderful rebirth."—Montreal Star.

HAD CLEVER ANSWER

We ran across a lad who is going to get along all right in this world. Taunted by someone because of an inordinate number of freckles on his face, he replied good-naturedly: "They ain't freckles. Y'see, we been goin' swimmin' most every day, and them spots is just my iron constitution rustin' on me!"

It is estimated that some engines in use on Canadian railways build up a mileage of 16,000 miles in 30 days.

Western Canadians Serving In Italy

Serving with the Canadian Army in Italy are these western Canadians pictured above. Top photo: Tpr. Donald Lake of Asquith, Sask., hands out some "chow" to Cpl. "Pat" Golden of Provost, Alta., from a hole in Italian clay which the tank crew have made a "permanent" home when forced by bad ground conditions to stay in one spot for long periods. Men in the lower photos are serving with the Royal Canadian Army Service Corps in Italy. In the group on the left, from left to right, back row, are: Pte. C. H. Cochran, Reston, Man.; Pte. J. Wall, Rush Lake, Sask.; Pte. G. Nibbet, Conquest, Sask.; front row, left to right, Pte. W. H. Ashdown, Meath Park, Sask.; Pte. V. F. Shields, Patholow, Sask.; and Pte. P. Doniak, Edmonton. Lower right photo shows Pte. R. Barton, of Kelthier, Sask.

Evacuated Children

British Government Prefers That They Remain In Canada Until They Can Enter Services

British Government policy prefers children evacuated to Canada through the Children's Overseas Reception Board to remain here until they become eligible for military service, war work of national importance or approved apprenticeship, Miss Marie Maxse, chairman of the board and vice-chairman of the Women's Voluntary Services said in an interview in Ottawa.

Miss Maxse has just completed a five weeks' tour of every province of Canada during which she interviewed children brought out to this country by the board. She was greatly impressed with what she saw. "The children are in A-1 physical condition and so full of life and enthusiasm. I hope Canadians realize how thankful we are over there."

According to English law when these children reach the registration age of 17 they must enlist or enter war work though they can choose to do it in Canada if they wish. Of the 1,532 evacuated by C.O.R.B. approximately 85 have entered the Canadian armed forces and approximately 100 have returned to the United Kingdom.

Miss Maxse recalled one boy whom she interviewed on her trip. His family wanted him home but he was unwilling to go. Finally he admitted he would like to join the Navy. Which Navy?

"Well, the Canadian Navy. If you don't mind me being frank, I just couldn't go home and work with a lot of Limeys," he confessed.—Ottawa Journal.

Will Come By Air

Planes Likely To Transport Perishable Foods After The War

When the war is over aviation will have much to say about the dinner table, the New York Times points out, referring to the role which air cargo may play in the eating habits of the people. It is not expected that the newer forms of transport will crowd refrigerator cars off the rails or bulk shipments from the sea lanes, but there will be an opportunity to inaugurate shipments of perishable farm products by air, as well as fruits and vegetables from countries far afield.

NOW SHE KNOWS

A mother who had a daughter employed in defence work in Washington, wrote to ask her just what she was doing. She received the following reply:

"I work in the data-analysis group of the aptitude-test sub-unit of the worker analysis section of the division of occupational analysis and manning tables of the bureau of labor utilization of the War Manpower Commission."

The chimney swift flies 19 of every 24 hours.

Exceptional Work

British Women Take Over The Hottest Job In War Work

In the retort house of a fuel gas factory somewhere in England, a group of women have completed their first year in the hottest job attempted by women in Britain's total war, a despatch from Britain states.

For 12 hours a week the women work in a veritable inferno of roaring furnaces, fire and heat. It is their job to feed coal into the furnaces where it burns in an atmosphere with less oxygen in it than ordinary air and gives off illuminating gas which is stored in vast bell-like containers.

There are three shifts in the retort house, the shifts clocking in at dawn. Between 9 and 10 comes the break for the mid-morning meal, and then another four hours of work. The women take their night shifts along with the men.

These women stokers average two days off a week and receive first-class medical attention. Doctors have found that their health is impaired by their strenuous jobs.

Several privileges come to the gas girls. They get a special allowance of tea to quench their thirst in the torrid heat. They have more time off than factory workers and, what is one of the best of all compensations, they receive their soap free of coupons.

A Matter Of Loyalty

Without That It Is Impossible To Do Canada The Best Service

Loyalty to British connection and to British ideas need not diminish one's loyalty to Canada. On the other hand, without that loyalty it is impossible to do Canada the best service. For Canada's highest interests are indissolubly linked with those of the Empire. Yet as in the case of other loyalties, loyalty to the Empire involves readiness to accept the responsibilities and to make such sacrifices as may be called for by citizenship in the Empire. It is, in fact, an essential element in loyalty to Canada—Orillia Packet-Times.

SELECTED RECIPES

Water cress is, nutritionally, one of the most valuable foods. It is an excellent source of Vitamins A, B1, C and G, and is packed with essential stimulants and blood builder. For these reasons, smart homemakers make a practice of including it in salads every day.

When a light lunch is in order, a salad including water cress, crackers, a dessert and beverage provides an ideal menu. The crackers supplement the vitamins and minerals of the salad with plenty of food-energy. Their salty flavor, of course, adds to the general enjoyment of it, too. Here's a tasty recipe that will come in handy the next time you plan a salad lunch:

LUNCHEON SALAD

1 bunch water cress
4 hard cooked eggs
2 tablespoons mayonnaise
1/4 teaspoon salt
Dash paprika
4 medium sized tomatoes
2 cups shredded cabbage
2 tablespoons French dressing
Wash water cress, drain thoroughly and reserve 12 sprays for garnish. Chop half of the remaining water cress medium fine and the other half lengthwise. Combine egg yolks with mayonnaise, salt and paprika, and mix thoroughly. Add finely chopped water cress and toss lightly. Use quarter tomatoes. Add French dressing to shredded cabbage. Mix thoroughly. Add coarsely chopped water cress. Toss lightly. On each of four luncheon sized plates, arrange two stuffed egg halves, four quarters of tomato, 1/4 of the cabbage-water cress salad and three sprays of water cress. Serve with crisp soda crackers. Serves four.

GETS HOMING PIGEONS

Harry Mulligan, prominent North Bay merchant, has become the proud owner of four homing pigeons from the Royal Lofts at Sandringham, England. After arrangements were made with the manager of the King's pigeon establishment, the birds were sent by boat and mail from England.

Siberia and Alaska are only 40 miles apart. 2572

AUCTION SALE

HEREFORD CATTLE
One hundred (100) Registered Friesian Hereford Cattle will be offered at Auction on July 3rd. For catalog and all information, write Malcom McGregor, Brandon, Man.

Feed For Horses

Dominion Experimental Station In Quebec Using Rolled Oats

Farmers who would like to save grain in feeding their horses will be interested in the practice of the Dominion Experimental Station at Normandin, Quebec, in feeding its horses rolled oats. The Station uses a small oat roller weighing only 180 pounds and operated by a three-quarter horsepower electric motor. The roller and motor are belted on a shaft close to the ceiling, just under the oat bin. From the ceiling a 3-inch pipe conducts the grain to the roller hopper. Underneath is a pipe which directs the crushed oats directly to the feed truck. By this arrangement, a man starts the crusher and then is able to leave it while he attends to other chores.

This Week's Pattern

The clean-cut lines of Pattern 4736 emphasize your reed-slim waist. Easy to make. Never flattering back-shoulder blouse included.

Pattern 4736 comes in sizes 11, 13, 15 and 17. Size 13, dress, requires 3 yards 39-inch fabric; hat requires 1/2 yard.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mail delivery of our patterns may take a few days longer than usual."

IT ALL DEFENDS

An artist who would a home among the Taconic Hills of Vermont was talking the matter over with a farmer who allowed that he had a house for sale. "I must have a good view," said the artist. "Is there a good view?"

"Well," drawled the farmer, "from the front porch you kin see Ed. Snow's barn, but beyond that there ain't nothin' but a bunch of mountains."

SALUTE IMPARTANT

Prime Minister Churchill told the House of Commons that the smartest saluting in the world was to be seen in Moscow, where the greatest importance was attached to "these finer acts of ceremony" in building up armies capable of facing the worst rigors of war. He was rejecting a suggestion that it should not be considered a breach of discipline when a man off duty failed to salute.

Although it thrives under adverse conditions in its natural habitat, cactus is one of the most difficult plants for man to cultivate.

If you suffer MONTHLY FEMALE PAIN

You who suffer cramp, headache, backache, and tired, nervous feelings—due to female functional disturbances—should try Lydia E. Pinkham's Vegetable Compound. It has a soothing effect on one of women's most important organs. Also a fine stomachic (tonic) made in Canada. Write for free literature.

Local News

Mrs. Mack Stigler is a Calgary business visitor.

Miss Mary Kovack is visiting at Michel for two weeks.

Mrs. Wm. Kinnear has returned home after a few weeks in Calgary.

Miss Joanna Yagos, of Lethbridge, spent the week end at her home here.

Freddie Sikka is visiting his mother, who is a patient in a Calgary hospital.

Born: To Mr. and Mrs. J. McDonald, 7th street, on Monday, June 12, a son.

Mr. and Mrs. Nels Frandsen and children visited relatives at Claresholm during the week end.

LAC Peter Bakaj, of High River, left on Tuesday after spending a furlough with his mother here.

Mr. and Mrs. Tom Kucera and son Michael, accompanied by Mrs. A. Panek, motored to Calgary last week.

Miss Helen Sikka, of Garbutt's Business College, Calgary, visited her father, Mr. Tom Sikka, for a week.

Miss Mary Sikora, of Lethbridge, is the guest of her parents, Mr. and Mrs. John Sikora, for two weeks.

Mrs. Tom Goldring, of Nanaimo, arrived here on Sunday to spend a vacation with her daughter, Mrs. R. Campbell.

The Journal acknowledges with thanks a renewal subscription received this week from Mrs. Montague Wilson, of East Arrow Lakes, B.C.

A birthday party was held at the home of Johnny Tarcon on June 8 on the occasion of his 8th birthday. Many of his young friends were present and all enjoyed games and a dainty luncheon. The honored guest was the recipient of a number of lovely gifts.

REV. FRED ANTHROBUS
ELECTED MODERATOR

Rev. Fred Anthrobus, of Ponoka, was elected moderator for the 1944-45 term at closing sessions Monday, June 5, in the First Baptist church of Edmonton district-Peace River Baptist church convention. Rev. Mr. Anthrobus, who previously held the position of vice-moderator, succeeded Sheldford Grimwood.

POLICE COURT

A number of cows have been roaming at large within the town limits recently and as a result two east Coleman and three west Coleman residents appeared in court charged with their cows being a public nuisance. Each was fined \$3.00 and costs.

Two men charged with being drunk in a public place were each fined \$20 and costs.

GIRL GUIDE NOTES

Our annual badge night will be held on Friday, June 16th.

We would be pleased to welcome anyone who cares to attend. We would particularly extend the invitation to all badge examiners.

Our "Cokie Day" plans were not carried out this week but the Brownies will be around on Saturday.
